

# THE MONTREAL CAPITAL

## WHAT DOES CAPITAL WANT, MUNICIPAL OR PRIVATE OWNERSHIP GAS PLANT?

### WHAT DOES CAPITAL WANT, MUNICIPAL OR PRIVATE OWNERSHIP GAS PLANT?

**J. Coates Prepared to Take the Matter Up With Council and Work Accordingly**

**COMES HERE AT INSTANCE OF BRITISH CAPITALISTS**

Prepared to lay before the city council proposals for the construction of a municipal gas plant, or to take up a franchise for a term of years if the council prefers private to public ownership of this utility, Mr. J. Coates, consulting civil engineer in England for one of the large Australian state governments, and for many years president and chief engineer of the Ottawa Gas Co., came into the city Saturday evening.

Mr. Coates is visiting Edmonton at the request of five English capitalists of financial strength, who are engaged in the manufacture of machinery for the production of artificial gas in Great Britain. In conversation with a Capital reporter who sought him out this morning he explained that his object was not to interfere with any arrangements which the council might wish to enter into, though he was prepared to lay proposals before the council if they were still open to deal with the people whom he represented.

"Personally I am a public ownership man," said Mr. Coates, "and am not here as a franchised hunter. If the council desire a proposition of this kind, we are prepared to meet their wishes, and to take up a franchise for a shorter term than is laid down in the offer they have had before them. The syndicate which I represent make a specialty of constructing gas plants for municipalities, but will be well satisfied to take up a franchise."

Mr. Coates was invited to the council of the city of Ottawa eight years ago on the municipal ownership platform, at a time when he himself was president of the Ottawa Gas Company. "I believe," said he this morning, "that such utilities as electric light, gas, water, and street railway, can be operated with the greatest advantage by the municipality, and do not believe that the best interests of any city can be served by bringing in a private corporation in competition with the municipality itself."

The present visit is the third which Mr. Coates has paid to the city of Edmonton. Eight years ago he came into the city and again three and a half years ago, and on each occasion he effected his assignment at the remarkable growth and progress of the city during the intervening years. The

#### INTERCOLONIAL RAILWAY MAKE GOOD SHOWING FOR THE YEAR

Ottawa, May 15.—The total surplus for the past year of the Intercolonial railway is \$272,712, which in view of the unusually heavy expenditures makes exceptional showing. The total income for the year was \$9,853,783, from which was deducted \$600,000 for the equipment, \$225,000 for the revenue account of equipment, \$76,000 to cover the cost of replacing sheds destroyed by fire at Campbell and \$5,000 per month expenditure of the new fire account, in addition to all the general operating expenses.

#### C.P.R. ARRANGES A NEW SCHEDULE

**NEW SERVICE BETWEEN WINNIPEG AND STRATHCONA TO START JUNE 4**

A new service will be instituted by the C.P.R. to be officially known No. 51 westbound and No. 52 eastbound, running between Winnipeg and Strathcona, June 4 is the date fixed for the service to begin.

This train will leave Winnipeg at 2:25 and will arrive at Strathcona at 6:30 on the second morning thereafter. The trip occupying about 32 hours. Eastbound the train will leave Strathcona at 2:05 and arrive in Winnipeg at 6:15 on the second morning thereafter.

A slight change in the C.P.R. schedule for the train known as No. 521, which after June 4 will leave Calgary at 1:05 in the morning for Edmonton, five minutes later than at present. This train will arrive at Strathcona at 8:15 in the morning, the same as now. This change has been made in deference to the travelling public, several persons having thought heretofore that it was inconvenient to have to wait for the train at Strathcona, and as a result a number of persons have missed their train by a scant five minutes.

#### ENSOR'S APPEAL A FIGHTLESS VICTORY

**A. R. GROFF SAYS HE ACCOMPLISHED ALL HE SET OUT TO DO AND WILL NOT RESIST APPEAL**

From proceedings which developed in court this morning it is evident that unless the crown takes up the case against Ensor, the belligerent chief is going to have an easy time with his appeal, as A. R. Groff, through his attorney, J. A. Clarke, made it plain that as far as he was concerned he considered that he, in bringing the chief's methods to light, had done his duty as a citizen and that he did not intend to pay out of his own pocket the costs of fighting the case through the courts in order to prove that the chief had used at least one citizen in a manner unbecoming of an officer of the law.

Before Justice Judge Taylor the appeal of Chief of Police Ensor from the conviction made by Mr. Weeks, J. P., of assault upon Mr. A. R. Groff, was spoken to by Mr. Groff for the chief and Joseph Clarke for Mr. Groff.

Mr. Cormanack asked the appeal be set down for a hearing and asked that Mr. Clarke give his consent. Mr. Clarke asked permission to make a statement to the court and proceeded with an argument and statement as to why he had advised Mr. Groff not to appear. "The chief," he said, "has," said Clarke, "accomplished all he set out to do. He has drawn the attention of the authorities to the incident complained of, which all admit is a private citizen should be expected to do. He will not oppose this appeal, but anything he does that will add any costs to this proceeding."

His lordship said this could not be done until a day was set for the hearing and the appeal proved. Believing Cormanack then proved the service of the notice of appeal, and the payment of the money for the same to Mr. Weeks.

The money not yet being in court, his lordship said he could not hear the appeal till the same was paid in. Having been given for the immediate payment of the money Wednesday, the 17th, inst., was set for the hearing of the appeal. Mr. Clarke was asked if he had any objection to the date, and replied that inasmuch as his client did not intend to appear, all days looked alike to him, although he drew the attention of the court to the fact that Mr. Groff was out of the city for an indefinite period. Several times his lordship referred to the fact that the crown might lose that appeal, and Mr. Clarke stated that was just what he wanted done.

#### MACHINERY SHIPPED FOR BORING EXTENSIVE WELLS

**THREE CARLOADS GO TO FORT McMURRAY COUNTRY FOR IMMEDIATE OPERATIONS IN THIS PROMISING FIELD.**

The first consignment of \$50,000 worth of well-boring machinery to be shipped to the Fort McMurray country during the spring, by the Fort McMurray Oil and Asphalt Co., left the city on Friday and Saturday of last week, when twenty teams, carrying a portion of the three carloads of machinery which are required for the season's operations, set out for the north. Two complete well-boring outfits will be shipped during the next few weeks, and in June well-boring operations will be commenced at Fort McMurray. On May 23, A. Violette, manager of the company, will leave Edmonton for the north. Sixteen men will be employed on double shifts, working night and day throughout the four months or more during which boring operations are made possible. This morning Mr. Violette expressed confidence before the close of the season, oil in abundant quantities would be struck at Fort McMurray. He has prospected in the north country for the past four years, and the existence of oil in large quantities in the district which his company proposes to develop, is undoubted in Mr. Violette's opinion. "Two other well-boring outfits will be at work in the district of Fort McMurray during the coming summer. The Northern Exploration Co., in which I. J. B. Buis is largely interested, will commence operations at an early date, and machinery for this enterprise is now being shipped north. A Vancouver syndicate is also preparing to drill for oil. Throughout the season there will be a constant rush of well-boring outfits of the Fort McMurray Oil and Asphalt Co., and the Northern Exploration Co., for the first oil strike.

#### PRESIDENT DIAZ HAS ONLY FAINT HOPE OF AVOIDING CRISIS

Mexico City, May 15.—Clutching the faint hope that the quarrel between Madero and Orozco would yet result in the disruption of the rebel forces and thus relieve the government of the necessity of facing a crisis, President Diaz and his committee today decided to await development of another 24 hours before altering their policy.

#### DEGREES WILL BE CONFERRED

**ON SEVEN GRADUATES OF UNIVERSITY OF ALBERTA IN STRATHCONA**

The assembly hall of the Collegiate Institute in Strathcona tomorrow afternoon at 3 o'clock will be the scene of the first convocation of the University of Alberta at which degrees other than those of an honorary nature will be conferred on students. Seven graduates will receive the honors, which will be formally conferred by Judge Stuart, Chancellor of the University.

At 10 a.m. the senate of the University will meet to order the conferring of the degrees. The proceedings of the afternoon which will be public and to which members of the convocation are especially invited will consist of an address by Chancellor Stuart, the presentation of the annual report of the university by President Tully, the convocation address by Dr. Tully, the new principal of the Presbyterian college, and the conferring of the degrees by the Chancellor.

#### SPECIAL CAR WILL TAKE CONVICTS TO NEW PENITENTIARY

**THIRTY-SIX FROM SASKATCHEWAN WHO HAVE BEEN SERVING TIME IN ALBERTA PENAL INSTITUTION TRANSFERRED TO PRINCE ALBERT.**

Thirty-six inmates of the Alberta penitentiary who have been brought to Edmonton from Saskatchewan at different times to serve terms in the institution here will start on a journey to the penitentiary at Prince Albert tonight on a special car attached to the regular east bound C. N. R. express which leaves Edmonton at 9 o'clock. As stated exclusively in the Capital a few days ago.

Warden F. W. Kerr of the Prince Albert penitentiary, accompanied by F. W. Dickenson, deputy warden, R. Forney, surgeon, H. A. Simms, assistant J. C. McLeod, warden, and blacksmith instructor, D. Sullivan, chief warden and John Hall, guard, arrived in the city yesterday. Today the special car on which the convicts will travel will be prepared. The windows and one door will be barred and the interior will be arranged for the accommodation of the prisoners and the guards. Shackled together in pairs and wearing prison stripes the prisoners will march to the C. N. R. station at 6 o'clock. Warden Kerr has received a warrant from Ottawa to take charge of the convicts and this will be handed over to Warden McLeod when they are taken away. At Warran Saskatchewan the prisoners will be transferred to the Alberta penitentiary at Prince Albert. On their arrival at Prince Albert they will be placed in temporary quarters in the wardens' building until they are housed in the new penitentiary.

The first active work of the convicts will be the erection of a residence for the warden costing \$10,000, after which a residence will be erected for the deputy warden costing a like sum. A 20 foot wall will then be constructed around the penitentiary grounds.

Warden Kerr has been keeper of the Prince Albert jail for the past fourteen years. For the first nine years of that term the institution was under the Dominion government and it has since been carried on as a provincial institution.

Danny Sullivan who spent five years as a member of the Edmonton police force and enjoys the distinction of having been "fired" by Chief Ensor will be the chief warden of the penitentiary.

#### Council for Accused Commissioners Intimates That They Could Not Get a Square Deal From a Committee of the Whole of the City Council Because the Members Are Prejudiced Against Bouillon and Butchart

That the investigation into the charges preferred against Commissioners Bouillon and Butchart, by members of the city council, should be conducted before an unbiased tribunal, will be the argument advanced by O. M. Biggar, solicitor for the commissioners, when he appears before the city council at the regular meeting of that body tomorrow evening.

While he would not discuss the question in detail, Mr. Biggar intimated to the Capital this morning that he would object to the investigation being conducted before a committee of the whole council on the ground that some of the members of that committee were biased and his clients might not be accorded a fair and impartial hearing.

In the event of the council deciding that the committee of the whole council shall carry on the investigation, Mr. Biggar would make no statement as to what his next course of action would be. At the opening session of the investigation this morning, C. C. McCaul, appearing in an advisory capacity to the city solicitor, stated that he and the city solicitor had agreed that certain papers should be issued, and others enlarged upon and for that reason an adjournment would be necessary before the regular investigation could be proceeded with. Mr. McCaul then proceeded to outline the course of procedure which the committee should in his opinion follow. Mr. Biggar agreed to the most important points of Mr. McCaul's argument and it was ultimately decided to hold a session this afternoon, when the evidence of C. V. Bisiwanger, former superintendent of the street railway department, will be taken.

It was also decided to refer the charges back to the city council for more definite information and as soon as this is received the investigation will be proceeded with.

(Continued on Page Eight.)

#### ALBERTA SOIL IS BEST IN COUNTRY

**SOUTH DAKOTA MAN IMMENSELY PLEASED WITH THE EDMONTON DISTRICT**

Anxious to secure a quarter section fifty miles north east of the city which he had located on a trip last week with W. C. Hoes, government land agent, Oscar Berken who came to the city a week ago from South Dakota where he had carried on farming operations, waving from the land office door this morning from 6 o'clock until the office opened.

"I wrote home this morning," he told the Capital reporter after he had left the land office, "and told my father that I would not trade the quarter section I had secured north of Edmonton for his own in South Dakota where land is selling at \$40 and \$50 per acre. The soil in the country north of here cannot be beaten. More people would come to this country from Dakota only they cannot be made to believe that it is not too far north to grow wheat. Then, too, there are a number of people who hesitate to come to a country where the ruler is a king."

There were seven men in the party which went north with Mr. Hoes to secure land in the north eastern district. Four of the men have already claimed close to the survey of the C.N.R. line from Morinville to Hatfield. The land in this section is being taken up rapidly.

#### Many Nationalities Among the Settlers

Half a hundred recently arrived settlers of all nationalities were gathered on the pavement in front of the land office at 9 o'clock this morning, when the office opened for business. Settlers coming from prospective homesteaders to an allotted place at the office counter were distributed as each individual filed name of house door, and the busiest morning that the department has experienced since the beginning of last month, was passed. At twelve o'clock no fewer than fifty four new titles had been received.

Sittings of the district court opened this morning, when small debt cases were brought before Judge Taylor for trial. It is probable that the large debt cases will be taken up this afternoon.

#### VOICES PROTEST OF PROTESTANTS

**REV. PATTERSON PREACHES ON "MEANING OF THE TENEMENT DECREE."**

Speaking on "The Tenement" decree, which is causing such a stir in Quebec at the present time and is calling forth protest from members of the Protestant denomination in Canada, Rev. F. W. Patterson was listened to by a large audience in the First Baptist church last evening. His subject was "The Meaning of the Tenement Decree, and its Import for the Home, the Church and the Nation."

"According to the views of the Roman Catholic priests," said Mr. Patterson, "the church and civil government should be inseparable. They should act in absolute harmony with each other, and according to some of the decisions given in the civil courts of Quebec the priests have in many cases had their wish. The 'No Tenement' decree holds that every person that embraces the Roman Catholic faith shall be a Roman Catholic for ever. It makes no difference whether a person who is Christianized a Roman Catholic embraces the Protestant faith later in life or not."

Mr. Patterson went on to explain that according to this new civil marriage performed by a Protestant minister outlawing Roman Catholic couples or couples one of which is a Roman Catholic are illegal and are not recognized by the Roman Catholic church in Quebec. "If such a law is allowed to stand," he pointed out, "the effect the decree would have on the homes of Quebec where thousands of marriages have been solemnized in a moment of the provisions of the No Tenement decree is not legal."

Chas. May & Co. report the sale of 250 acres of suburban property from J. A. Gault to J. B. Carson, W. H. Hailworth, of Vancouver, B.C., the purchase price being around the \$50,000 mark.

#### ASPHALT COMING TO EDMONTON FROM THE F. McKay Company

**TO BE SHIPPED HERE FOR MAKING TESTS FOR PAVING PURPOSES—CITY HAS ACCEPTED OFFER OF J. K. CORNWALL.**

Between five and six tons of asphalt will be shipped into Edmonton from the north country before July 10 according to the statement to the Capital this morning of A. Violette, manager of the Ft. McKay Oil and Asphalt Co. The asphalt is being shipped into Edmonton for the purpose of making a test of its qualities for pavement purposes, on one of the city streets. Some weeks ago the city council accepted the offer of J. K. Cornwall, M. P. P., and Mr. Violette, to pave a portion of one of the city's streets during the present season at the company's expense.

#### Marked Activity at Immigration Hall

This immigration hall on First street has been the scene of unusual activity during the past few days, 74 persons having registered there since Saturday morning. Nine of these are Hollanders who came to the city yesterday. They are looking for land in the Edmonton district. Four families from England came to the hall yesterday, the heads of which are a storekeeper, a cooper, a bricklayer and a bootmaker and carpenter. It is seldom that one sees the names of men who are more than 35 years of age on the list at the immigration hall. All are young men with the best part of their lives before them. Among those who have come to hall since Saturday are men all of young men laborers to locomotive engineers.

#### COMMITTEE WORKS ON REVISION OF PROGRAM PUBLIC SCHOOL STUDIES

The committee for the revision of the programme of studies in the public schools of Edmonton is in session this morning in the collegiate institute. The committee is composed of Mr. J. K. Cornwall, M. P. P., and Mr. Violette, manager of the Ft. McKay Oil and Asphalt Co. The committee is working on the revision of the programme of studies in the public schools of Edmonton. The committee is composed of Mr. J. K. Cornwall, M. P. P., and Mr. Violette, manager of the Ft. McKay Oil and Asphalt Co. The committee is working on the revision of the programme of studies in the public schools of Edmonton.

A meeting of the Knights of the Macabees will be held at the residence of A. Desjardis, 304 Isabella street, this evening to select a delegate for the general convention.

## SURVEYOR HAS BIG CONTRACT

Within the next few weeks, R. E. Ro, Dominion land surveyor who came into the city Saturday from Quebec, will leave with a survey party for Battledore, whence he will proceed to the northeast to complete the survey of five townships which are to be thrown open for settlement in the near future. Townships 49 and 50, in range 9, west of Third meridian, and 50, 51 and 52 in range 10, will be surveyed by Mr. Ro during the coming summer.

Before he leaves for Battledore, however, the Quebec surveyor will visit the territory north of the McLeod river, where he will complete a survey of townships commenced last year.

## MINSTREL SHOW AT LYCEUM A SUCCESS

Sherman and Cleveland's minstrel production proved a success both as to jokes and musical numbers. Jack Westerman and Harry Cleveland as "end men" certainly proved their ability as fun makers. The stage was set in the entire company in dress suits of various colors which made quite a pretty picture.

Don't ask for a free ticket unless the house team is last in the race and the management becomes liberal.

## ARSON CASE IN SUPREME COURT

SAMUEL WILSON AND HIS MOTHER-IN-LAW ARE NOW BEING TRIED

### WOMAN FOUND GUILTY OF ARSON AND SENTENCED TO THE PENITENTIARY

In the supreme court at Red Deer Saturday, Mrs. Georgiana Garvin, of Lacombe, was sentenced to a term of two years in the penitentiary on a charge of arson. Mrs. Garvin was convicted of setting fire to the building of the Lacombe Produce Co. on March 2. The Lacombe Produce Co. building was owned by the son-in-law of Mrs. Wilson, Samuel C. Wilson, of Calgary, and Wilson is also charged with complicity in the plot to destroy the building by fire. At the request of the crown Wilson's case has been adjourned until the fall sittings of the court.

Red Deer, May 15.—Widespread interest has been taken in the arson case tried last week before Mr. Justice Simmons in the supreme court, in which Samuel Wilson, of Calgary, and his mother-in-law, Mrs. Georgiana Garvin, were charged with setting fire to the building of the Lacombe Produce Co. on Thursday, March 2. The building was owned by Mr. Wilson, and said to have been very heavily insured. The owner was represented by P. J. Nolan, K.C., of Calgary, and Mr. Russell of Red Deer, while A. McDillivray, of Calgary, is defending Mrs. Garvin and T. M. Tweddle of Calgary is defending Wilson.

Evidence given on the stand Friday and Saturday which appeared to indicate that some time previous to the outbreak of the fire, the locks of the building had been tampered with, and the presence of dry kindling wood in large quantities and other circumstances believed by neighbors to cast suspicion on the accused, were revealed on the stand.

Friday a number of cases of the criminal docket were disposed of. A man named Morrison pleaded guilty to the theft of a diamond ring from an express office at Lacombe, and was sentenced to three months at Fort Saskatchewan.

Two years in the penitentiary is the sentence to be undergone by J. Russell, who was convicted of attempted murder of a Chinese restaurant-keeper named Sam Lee. The charge in the case of Rex vs. Gadsby was changed from rape to common assault by the judge, and the jury found the prisoner not guilty.

## NARROW ESCAPE FOR PASSENGERS

LIVES ARE IMPERILED ON BOAT IN NEW YORK CITY HARBOR

New York, May 15.—The lives of two hundred persons were imperiled early today when the British Fruit company's steamer the Merida was rammed and sunk by the Admiral Farragut. The Merida was bound for this port with 187 passengers on board and a full cargo of merchandise. The iron discipline of the officers on board the doomed craft prevented an inefficient panic and as quickly as life boats and rafts from both the Farragut and the Merida could be placed in commission the passengers were transferred from the sinking steamer.

The Farragut stood by the other craft until she sank five hours after the collision occurred. By that time the old Dominion liner Hamilton and the United States battleship Iowa, summoned by wireless to the aid of the ship in distress, had reached the scene and were standing by. The passengers were again transferred from the Farragut to the Hamilton, after

## Doctor Told Her She Did Not Have Pint Of Good Blood In Her Body.

Mrs. Douthe P. Cormier, Middle Sackville, N.B., says:

"In the spring of 1897 I was all run down, and the doctor told me I had not a pint of good blood in my body. I took different remedies from doctors, but they did not seem to do me any good. After having taken a lot of different other kinds of medicine, and they did not seem to benefit me, I was almost in despair and did not know what to do until my husband met a lady and told her about my sickness and she told him to try Burdock Blood Bitters as she had received the greatest benefit from using it. My husband went and bought me a bottle, and after having taken it I felt better, so I kept on using one bottle after another until I had taken six in all and then I was strong and well. I am positive that my being alive to-day is due to the use of Burdock Blood Bitters. One spring since then I was not feeling very well and had a lot of work to do. I thought I would procure a bottle of Burdock Blood Bitters and after I had taken two I was able to do a lot of hard work all the summer, and I never felt better in my life. In the winter of 1908 I had Pneumonia, and I felt me with a severe pain in the left side. Every morning when I would get out of bed I had to sit down for a while it was so painful. After I had used Burdock Blood Bitters the pain disappeared completely. It has also cured me of bleeding piles. I have received the greatest benefit from Burdock Blood Bitters that you may publish this as it may help others as I have done."

Manufactured only by The T. Millman Co., Limited, Toronto, Ont.

which the Hamilton headed to Norfolk. The Merida was loaded directly north by east when the Farragut came dead against her out of the fog. Awakened by the shock of the collision, passengers tumbled out of their staterooms and up the stairs by the dozen. A panic was narrowly averted.

The wireless message for aid was first received at Fire Island. It was rapidly relayed to the Hamilton, the Iowa and the Norfolk navy yard.

The Merida was built in Philadelphia in 1890 and had a tonnage of 1,400. The Admiral Farragut, owned by the American Mail Steamship company, is in the service of the United Fruit company between Philadelphia and Port Antonio. It has a tonnage of 1,300.

Jack McAdams, the star pitcher of the Texas League, now with Dallas, was purchased from Muskogee, last year for \$1,500. Muskogee wanted five, but finally consented to waive the price twenty cents.

## Drink It Oftener—Live Longer

No Better Food For Everybody

Fry's Cocoa will do you more good than any other food or beverage. Drink it at every meal—between meals—at bedtime—and you will gain in healthy flesh, cleaner blood, stronger nerves, added energy and vim. It is the richest, purest food-beverage money can buy.

## Better Than Milk For Children

For invalids, for tired people, for nerve-ridden people, for failing appetites, FRY'S COCOA is better than medicine—a perfect tonic, food, beverage, all in one, and a delicious drink as well. For children, FRY'S COCOA is far better than milk—more nutritious, easier digested, purer. You won't have to coax the little folks to drink it—but you'll find the proof of the good it does written in rosy letters on the plump little cheeks. And it is good for grown people.

## Good For Everyone

Tea or coffee may not really harm you—but neither can benefit you at all nor feed you at all—both are mere infusions—mere flavours. But cocoa is an emulsion of gluten, fats, albumen, starch, sugar—all the food-requisites, available in the most palatable form—alluring to the taste, instantly helpful to the system. "There is no better food than Fry's Cocoa," says Dr. Andrew Wilson, F.R.S.E., the great authority. Health states that Fry's "is the strongest and best cocoa that can possibly be produced." Prove that for yourself—order a tin from your grocer—tell him, though, that

## Nothing But FRY'S Will Do

Fry's Breakfast Cocoa, you see, is the most economical (as well as the purest and richest) of cocoas. A tiny spoonful makes a big cupful of the fragrant, nourishing, palate-pleasing beverage that is the best thing anyone can drink. A tin of Fry's costs very little, considering how long it lasts even though you use it thrice a day for the whole household.

## Fry's—is good

And when 'company' drops in unexpectedly, you are never at your wits' end for a satisfying repast if you have Fry's Cocoa in the pantry—it goes a long way toward making a feast of an ordinary meal. Everyone likes it. Be sure that you include Fry's Cocoa in your next order to the grocer.

Dr. Joseph Fry founded the House of Fry at Bristol, England, early in the eighteenth century. To-day the works, the largest cocoa manufactory in the world, employ nearly 5,000 people. Messrs. Fry hold Royal Warrants as Manufacturers of Cocoa and Chocolate to the Royal House of England, of Spain and of the Hellenes; and they have received more than 300 Grand Prix, Gold Medals and Diplomas attesting the high merit and purity of their wares.

## Quit Tea Ten Days—Try Fry's Cocoa Instead That Will Prove The Good It Does

Trade Supplied by J. S. FRY & SONS, LIMITED

123 BANNATYNE AVE. EAST, WINNIPEG, MAN.

## Treat Yourself To Fry's Chocolates

One, at least, of the good stores you deal with has a supply of fresh-made, daintily-packed, delicious chocolate candies—Fry's Chocolates—alluring little morsels of pure goodness. Carry a package away with you—leave just twenty-five cents with the shopman—and be glad you made the acquaintance of Fry's Chocolate Assortment. Fry's are quite a little nicer than the very nicest candies you have tasted yet—richer—purer.

25c At Good Dealers

Every morsel is a palate-delighting surprise. Surely try them—see that the cover says FRY'S CHOCOLATE ASSORTMENT—the price is only twenty-five cents for a big boxful. You will think the price should be higher.

### STACK KIDNAPPING CASE

Jefferson City, Mo., May 15.—The Supreme Court of Missouri today rendered its decision in the case of Stack vs. Bailey, a case which has been pending for several years. The court held that the writ of habeas corpus issued by Judge Grimm of St. Louis to compel Richard B. Stack, a wealthy Michigan lumberman, to produce his

7-year-old son in court. In his former wife's application for the writ, Stack is accused of having kidnapped the child. The litigation, which has been dragging its way through the courts for several years, grows out of the divorce of Mrs. Stack in 1908. In January, 1910, she brought a charge

against him of having kidnapped the boy from the home of Mrs. Cornish Bailey, her sister, who resides in St. Louis. Stack was acquitted of the charge, whereupon his former wife brought habeas corpus proceedings to compel the father to bring the child into the custody of the court.

Speaker Champ Clark was formerly president of Marshall College, and next to politics his chief interests are farming and books. It is reported that Governor Donahay of Arkansas, has decided to retire from public life at the close of his present term in January, 1915.

# AMUSEMENTS

"LEND ME FIVE SHILLINGS" AT THE LYCEUM THEATRE

Tonight Sherman and Cleveland's Merry-makers will present that very funny English musical comedy "Lend Me Five Shillings." The scenes are laid in London, and the plot concerns a young society chap, who makes a bluff at being rich when the fact of the matter is he hasn't five shillings in his pocket. He attends a fancy dress ball, and there meets a charming young lady who depends upon him to escort her home. The chap has five shillings, and he is up against it, so to speak. The situations that arise are extremely funny. Jack Westerman will play "Mr. Golithy" the young Englishman. Mr.

Ferd Snook, Mr. George Jenkins, Miss Minnie Southern and Miss Toots Perkins, all late of the Max Hill Co., have joined forces with the Merry-makers and will be seen in this bill.

## LIQUOR-SMUGGLERS

Convinced by Inspector Havel of the R. N. W. M. P. of selling liquor in prohibition territory, J. Triles and F. Buritt, were brought into the city under terms of imprisonment at Fort Saskatchewan. Triles, who in addition to the business of illicit liquor-selling, indulged in the practice of theft from the C. T. P. construction camps, will undergo a term of six months, while Buritt, who had the blind pig business sufficiently profitable, without any other side lines, will serve two months.

# MUSICAL CONTEST OPENS TOMORROW

EXCELLENT PROGRAMME ARRANGED FOR ENTERTAINMENT OF LOVERS OF MUSIC

Complete arrangements have been made for the fourth Alberta musical festival, which opens tomorrow afternoon. The festival promises to be crowded with musical events of more than usual interest.

The committee in charge of the business connected therewith, decided some months ago that it was advisable to defer the dates for holding the competition until after the middle of May, on account of the fact that Edmonton would be sufficed with music early in the month.

As in previous years, the competitions will be held in the All Saints' School room, beginning at 2 o'clock, p.m. and will continue until Thursday afternoon, at 4 o'clock. It was found necessary to extend the time on account of the addition of a number of competitions, notably mixed vocal quartets and vocal duets. Year by year the number of competitors has been increased, and in the present syllabus competitions are open in no less than twenty-eight classes.

On Wednesday evening, in the Thistle rink, on Second street, at 8:30 o'clock sharp, the choral competitions will be held. At 9:15, the sight-singing test will be given. The following day, Thursday, will be devoted to tests in piano accompanying and sight-singing, finishing in the afternoon with mixed and male quartets and ladies' choruses.

On Thursday evening, at 8:15, a grand concert by the massed choruses and orchestras will be held in the Thistle rink. This concert which is under the distinguished patronage of His Honor, the Lieutenant Governor, will be participated in by the various winning competitors, and will conclude with the presentation of the "Waltham's Wedding Feast," one of the most unique of characteristic compositions, portraying with great effect, and with musical feeling the famous poem of our poet Longfellow. The choruses, which number over 200, is composed of all of our most talented musicians, and will be re-inforced by an orchestra of forty-five pieces. During the evening, the prizes and shields will be presented by the Lieutenant Governor to the various winners. This cup will be held by the winner for one year and a specially designed bronze medal will become the property of the successful competitor.

The adjudicators this year will be Dr. H. C. Perrin, of McGill University, Montreal; P. W. Woodh, of Boston, Massachusetts. Both these gentlemen have international reputation as musicians and stand in the forefront of musical life of the Dominion and of the United States. Admission to the competition will be by means of a fifty-cent ticket which will entitle the holder to entrance on the three days. The admission to the rink for the choral and chorus competition on Wednesday evening will be 50 cents, and 25 cents. The judges' decision will be given in all cases at the close of each competition. Entries for sight-singing, sight-playing and accompanying will be accepted immediately before the competition.

Ladies' choruses will compete for a shield. Small choirs will compete for the Oliver shield at present held by the Presbyterian Church choir of the Cross shield at present held by the Methodist church society. Vocal quartets will compete for the Strathcona shield. Ladies' choruses will compete for the Thistle shield at present held by the choir of All Saints' church, Edmonton, and male choruses will compete for the McEwain shield which is now held by Mr. Jackson Hanby's male chorus, Edmonton.

The committee in charge of the festival, are: Vernon W. Barford, president; Howard Stuehberg, vice president; Frank Landman, secretary-treasurer; Miss Beatrice Crawford, Miss L. A. D. Moore, Miss Violet Smith, Miss Ethel Webster, Mrs. V. Bainger, Ernest Butterworth, C. N. Cobbett, Jackson Hanby, W. J. Hendra, V. P. Hunt, Claud Hughes H. H. Stevens, Hugh Watt, W. Harry W. Wals.

The local secretaries are—Percy Newcome, Calgary; S. S. Newton, Gardston; L. C. Gies, Red Deer; G. Hughes Wetsakwin; A. Tiley, Lethbridge; T. Magee, Crossfields; and G. E. K. Cox, Strathcona.

The following is the programme of the competition tomorrow:

Tuesday, May 16, 1911. All Saints' school room. Afternoon: 2:00-2:30, violin, junior; 2:30-3:00, piano, junior; 3:00-4:00, violin, open; 4:00-4:15, vocal competition, soprano; 4:15-5:30, vocal competition, mezzo-soprano.

## YOU TAKE NO RISK

Our Reputation and Money is Back of This Offer.

We pay for all the medicine used during the trial, if our remedy fails to completely relieve you of constipation. We take all the risk. You are not obligated to us in any way whatever, if you accept our offer. Could anything be more fair for you? Is there any reason why you should hesitate to put our claims to a practical test?

The most scientific common-sense treatment is the laxative, which is eaten like candy. They are very pronounced, gentle and pleasant in action, and particularly agreeable in every way. They do not cause diarrhoea, flatulence, griping or any inconvenience whatever. Rexall's are particularly good for children, aged and delicate persons.

We urge you to try Rexall's at our risk. Two sizes, 10c and 25c. Remember, you can get Rexall's Remedies in this community only at our store—The Rexall Store, A. Archibald.

The opponents of state-wide prohibition in Texas will open their state campaign in Fort Worth early in June.

## IS VISITING EDMONTON

Returning from a trip through California, Mr. and Mrs. Fred Ryan and Miss Ryan of Sackville, N.B., accompanied by Mr. and Mrs. A. P. Barnhill of St. John are visiting Edmonton. The members of the party are guests at the King Edward hotel.

Mr. Ryan is at the head of the Charles Fawcett Manufacturing Company of Sackville, N.B., and many establish branches at different places in the west.

Four years ago he passed through Edmonton and he started to a Capital reporter this morning that in his opinion the advances made in Edmonton since that time have been remarkable.

A Ruthenian laborer on the high level bridge construction was brought into the mounted police barracks Saturday, violently insane.

## Well Groomed

IT WAS ever thus—the well-groomed individual holds the enviable position socially and politically. The practiced eye of the man of rank recognizes his rival at sight. ## PAVING NAMAYO AVENUE

The H. S. Blome Paving Contract is making arrangements to commence active work on their contract on Namayo avenue within the next few days. The centre of the street was paved last year now snow and the street car tracks have been installed but the remainder of the paving still remains to be done. The street has been in a deplorable condition all winter, owing to the fact that the centre being paved was raised much above the sides of the street making it dangerous for teams when the snow was on as they could not tell exactly where the pavement commenced and ended.

According to a statement just issued from the headquarters of the National Socialist party in Chicago there are now more than six hundred thousand voters of the Socialist ticket in the United States.

## The Intercolonial Should Be Extended To Prairie Provinces

If the dispatches from Ottawa are to be interpreted to mean what they say Mackenzie & Mann are to receive a guarantee from the Dominion to the extent of \$350,000 for the purpose of connecting up their western lines at Port Arthur with the Dominion government's Intercolonial line at Montreal, and for this loan of credit the Dominion receives nothing but the routing of the traffic gathered by the C. N. R. in the west over the Intercolonial.

Judged by comparison with other railway deals which Dominion governments, conservative and liberal, have entered into, it cannot be said that the C. N. R. deal is a bad deal. Certainly it is an infinitely better deal than the old conservative government made with the C. P. R., the consequences of which, with its exemption clauses and its broad powers, still overshadow the west like a pall. And it is a better deal than that made by the liberal government with the G. T. P. in the respect that it specifically sets the Dominion's liability at the figures of the guarantee instead of at the cost of construction, as was the case with the National Transcontinental, while it has the additional wisdom—a wisdom undoubtedly attributable to George P. Graham,—that it prevents the paralleling of the Intercolonial. But it cannot be said that this deal fulfils the hopes, the ambitions or the wishes of the west.

If the Dominion is to lend the credit upon which the road that will connect the Intercolonial with the west is to be built, why should not the Dominion own the road?

Why should the Dominion government lend to Mackenzie & Mann the credit on which they will finance the construction of a railway which is to be the natural complement of the Dominion's Intercolonial?

Why should MacKenzie & Mann enter into this deal at all?

Why should not the Dominion, if it is going to finance the road, build the road, and thereby bring the Intercolonial into the wheat fields of the west, furnishing the C. N. R., or any other railway, a connection at Winnipeg, if they want it, or at Port Arthur, if that suits them better, and supplying to the western provinces for all time a government-owned and government-operated road which would effectually regulate traffic rates to the Atlantic seaboard, not only on the government road, but on the Canadian Pacific and the Grand Trunk Pacific as well?

While westerners as a whole, and particularly the grain growers of the prairies, are inclined to look with favor on government ownership of railways, one government after another at Ottawa has taken the ground that government ownership is a dangerous experiment and the Intercolonial has been pointed to as an instance in which it is claimed that government ownership has failed.

But by the construction of the Hudson's Bay railway as a government enterprise the government has relinquished any right to use this argument, for could not any argument urged against the extension of the Intercolonial from Montreal to Winnipeg be urged with greater force against the construction of the government railway from The Pas to the Bay?

The greatest argument advanced against the Intercolonial is that it is a monument of mismanagement, but this is not an argument against government ownership but an indictment against the management which the Intercolonial has received. Once get this road into the west and the mismanagement would certainly disappear, for when the farmers of the prairie provinces came to recognize that the freight on their wheat to seaboard was regulated by the efficiency of the government road, inefficient management would not last.

### JUST PARAGRAPHS

The aviators went on strike in New York the other day, refusing to go ahead with the exhibition unless they got 25 per cent. of the gate money. The dispatch does not say just exactly when they quit, but it is a safe guess that if any of them were up in the air at the time the strike was called, they would probably hesitate a moment before deciding to leave their machines where they were and walk home.

For greater safety Diaz has transferred his fortune of ten millions to the United States sub-treasury at Washington and it commences to look as though the time is not far distant when the aged president will feel constrained to transport his own anatomy after his gold, if he wants to keep it intact.

On Wednesday evening, June 28, R. L. Borden is going to talk to Edmontonians on the subject of reciprocity. Mr. Borden will undoubtedly get a good hearing in this city, for it is characteristic of Edmontonians that they do not allow their convictions to interfere with their cordiality. But if Mr. Borden really believes that anyone in the west is seriously opposed to any arrangement which lowers tariffs someone, ought to enlighten the poor man before he gets this far west.

Regina has the same kind of an incinerator as Edmonton—and they have decided to move it. The only question that confronts the Regina commissioners is to find a site to which they can move it without inciting an uprising.

# Portland Cement Co., Limited

THE remarkable facts of the Edmonton Portland Cement Company Limited, which were set forth in the first six articles of these series published in all the daily papers of Edmonton are re-stated briefly in the following digest. Every citizen of Edmonton who believes the facts of this great enterprise will have shares in the Company to the extent of his ability to purchase. No argument is required to induce a man to purchase stock in a Company where he can double his money in two years, and get forty per cent. dividends for forty years.

## ARTICLE NUMBER SIX

In the series of six articles which were published in all of the Edmonton newspapers last week, the following facts were developed and set forth.

1. That the Edmonton Portland Cement Company was organized to purchase what is probably the largest marl deposit on the American Continent, located 14 miles west of the town of Edson on the main line of the Grand Trunk Pacific Railroad and a large bed of fine blue clay five miles east of the marl deposit, and also on the Grand Trunk Pacific; and to build on this property a Cement Mill with a capacity of 1500 barrels per day.

2. This property has been thoroughly examined by Messrs. R. D. Hassan and T. J. Klossoski, the best known Cement Engineers and Constructors on either side of the International Line. These gentlemen have built seventeen successful cement plants in the United States and Canada, including the famous International Plant at Hull. They have given their opinion briefly as follows:

- "The composition and quality of both materials is ideal for the manufacture of a high-grade Portland Cement, the marl being high in calcium, clean and comparatively uniform;
- The clay could not be surpassed for composition;
- The quantity of marl now in evidence is sufficient to run a fifteen-hundred barrel mill continuously for forty years. And this will undoubtedly be increased by complete surveys and testings";
- And that Portland Cement can be manufactured on this property at a cost not exceeding 78 cents per barrel, as follows:

Coal at \$2.50 per ton, 130 lbs. per bbl.	.16
Coal for drying clay	.01
Power at 3-4c. per h. p. hour	.17
Labor, 130 men at \$3.12 per day	.31
Gypsum	.01 1-2
Office and Sales \$60 per day	.05
Insurance and taxes	.01 1-2
Small supplies, repairs, etc.	.02
Depreciation, not included in above	.03
	.78

3. The market for the entire output of the proposed plant is waiting at its very door. The City of Edmonton will consume 200,000 barrels of Portland Cement in 1911 and the demand is increasing. The construction work along the line of the Grand Trunk Railroad will consume as much more. The price of this cement is fixed by the factory cost at Eastern mills and freight rates to the Edmonton district. Not a bag will be bought for less than \$3.05 per barrel.

4. On the basis of the Edmonton market today the result of a year's operation of the plant of the Edmonton Portland Cement Company, reckoning on a minimum output of 312,000 barrels, would be as follows:

Gross sales, 312,000 barrels at \$3.05		\$951,600
Cost of manufacture at	.78	\$243,360
Freight at	25	75,000
		311,360

Not profit on the year's business \$640,240

5. The cost of manufacture has been verified by following the operations of a 1,500-barrel mill as follows:

Coal, 37,480 tons at \$2.50	\$ 94,700
Labor	109,800
Gypsum 870 tons at \$8.00	6,960
Edmonton office	5,500
Small supplies and repairs	10,000
Depreciation	5,990
Insurance and taxes	4,680
	\$243,000

6. Both the marl and clay have been tested in the laboratories of Messrs. Thomas Heys & Son, Technical Chemists of Toronto. Their several analyses average about as follows:

Carbonate of lime	90 p.c.
Carbonate of magnesia	2 p.c.
Silica	2 p.c.
Oxide of iron and alumina	1 p.c.
Organic matter	6 p.c.

### CLAY

Silica	62 p.c.
Alumina	22 p.c.
Oxide of iron	4 p.c.
Carbonate of lime	4 p.c.
Carbonate of magnesia	4 p.c.
Alkalies of potash and soda	1 p.c.
Organic matter	3 p.c.

### THE RESULTING CEMENT

as worked out by Messrs. Heys & Son.

Lime	65 p.c.
Silica	23 p.c.
Alumina	7 p.c.
Oxide of iron	3 p.c.
Magnesia	3 p.c.
Alkalies	trace

There is no better Portland Cement on the market than this.

7. The growth of the Cement Industry is the marvel of the industrial history of the world, as the following table will show:

### GROWTH OF THE CEMENT INDUSTRY IN AMERICA FROM 1870 TO THE PRESENT TIME.

Year.	Number Barrels Produced.	Year.	Number Barrels Produced.
1870 to 1879	82,000	1895	990,324
1880	42,000	1896	1,543,023
1881	60,000	1897	2,677,775
1882	85,000	1898	3,692,284
1883	90,000	1899	5,652,266
1884	100,000	1900	8,483,020
1885	150,000	1901	12,741,225
1886	150,000	1902	17,230,644
1887	250,000	1903	22,342,973
1888	250,000	1904	26,605,881
1889	300,000	1905	36,246,812
1890	350,000	1906	46,463,424
1891	454,813	1907	48,876,310
1892	547,440	1908	61,072,912
1893	590,825	1909	62,508,401
1894	789,576	1910	74,000,000

8. Concrete, the universally adopted construction material of the twentieth century, is Portland Cement, sand and crushed rock combined in about the proportions of 1, 3 and 5. It is universally used, not only in reinforced concrete construction for building purposes, and for all the construction purposes of brick, stone and steel, but it is used for hundreds of purposes for which these materials are impossible. Not only is it used in enormous quantities for paving purposes and for building construction, but also for piling, tanks, bridges, roofs, flooring, certain types of boats and barges, such vast engineering undertakings as tunnels, subways, irrigation and reclamation projects, the modern monolithic house, tree preservation, ornamental concrete, a hundred domestic purposes on the farm, such as concrete hens' nests, door steps, sidewalks, rat-proof corn cribs, sanitary cowsheds and finally the most stupendous of all engineering undertakings, the Panama Canal, where 3,000,000 barrels of Portland Cement, or 20,000,000 barrels of Concrete, will be used.

9. The annual production of Portland Cement has increased in the past twenty years from 335,000 barrels to 74,000,000 barrels—twenty-two thousand per cent, and in the same time six hundred million dollars was invested in the Portland Cement Industry in the United States alone.

10. America and especially Canada is at the threshold of the greatest era of construction which the world has ever known; railroads are being spread like a net work over the land, towns and cities are being built, and within another generation the world's home signal, "the light in the window," will stretch an unbroken line from the Rocky Mountains to the Atlantic Coast. And in the next ten years the demand for Portland Cement will increase from 74,000,000 barrels in 1910 to 200,000,000 in 1920.

11. The two materials from which Portland Cement is manufactured, carbonate of lime and silica, are derived respectively from marl or lime-rock, and clay, shale or slate. Naturally, Portland Cement can be more economically manufactured where the necessary materials are BOTH found. But as they have no geological association, they are only found near together by chance.

The whole American Continent has been prospected for these materials and the few locations where both are found have been long since taken up. The property of the Edmonton Portland Cement Company is the only known adjacent deposits of both marl and clay in the Province of Alberta and British Columbia.

12. Plants are now being located where either material is found and the other is shipped to the mill. The competing plant nearest the Edmonton Portland Cement Company ships its lime-rock 65 miles and its shale 28 miles. Plants are also being located with reference to distribution only and are shipping both materials. All of this increases the cost of production and advances the price of Portland Cement.

13. The Edmonton Portland Cement Company has an abundance of both materials in their most accessible form; can produce Portland Cement at the minimum cost of manufacture; and sell its entire output at the market price fixed by the disadvantages of its competitors.

14. The market at the very door of the Edmonton Portland Cement Company is now more than 400,000 barrels annually and increasing. This will absorb its entire output and freight rates alone will make competition impossible.

15. The Edmonton Portland Cement Company has materials for the manufacture of at least 12,500,000 barrels of Portland Cement under the most favorable possible conditions.

16. On the basis of present prices, the Edmonton Portland Cement Company can manufacture Cement at a profit of \$2.00 per barrel. No one can now tell how much greater its future profits may become. These will be fixed by the increasing disadvantages of its competitors and an increasing market.

17. The Edmonton Portland Cement Company should distribute at least \$12,000,000 in dividends in the next twenty years, and every dollar of these dividends should be kept in Edmonton and vicinity.

18. The stock of the Edmonton Portland Cement Company has a present par value of \$1,500,000. On the basis of one-half its probable earnings this stock should go to \$3,000,000 in two years and \$7,500,000 in five years; that is to say, the shares of the present par value of \$100 should go to \$200 in two years and to \$500 in five years. Every dollar of this great increase in values should enlarge the fortunes of Edmonton citizens.

19. The Edmonton Portland Cement Company is an Edmonton proposition. The property was discovered, prospected and developed by Edmonton men. The directors of the Company are from the best citizens of this community and they have every one purchased liberally of its stock.

### These directors are:

G. H. V. Bulyea, Lieutenant-Governor	\$10,000
W. S. Heffernan, Broker	10,000
S. H. Smith, President Western Realty Co.	5,000
W. D. Ferris, Physician and Surgeon	5,000
J. F. Lundy, Broker	5,000
A. Briscoll, Dominion Land Surveyor	5,000
Jas. A. McKinnon, Real Estate	2,000
J. H. Gariepy, Capitalist	5,000

Seven additional prominent gentlemen will shortly be added to this board. In addition to these directors, a number of prominent Edmonton citizens have already subscribed to the stock of this Company.

20. A prominent Edmonton banker has given it as his opinion that there is an abundance of idle capital lying in the good banks of Edmonton right now and belonging to Edmonton citizens to immediately finance this institution. Therefore, not a share of its stock should go out of this community. There is no reason why this splendid enterprise should be turned over to the "interests" that would be glad enough to get it. Let us prove that Edmonton is the financial and commercial capital of Western Canada.

Shares are \$100.00 each and purchasers may subscribe for any number of shares from one to 250. Payments on the stock will be arranged to suit the convenience of the purchaser. Stock books open for subscription at the parlors of the King Edward Hotel at ten o'clock, Monday morning, May 15th.
